The long-looked-for challenge from the Trenton jiggermen to President A. S. Hughes, of the Brotherhood of Operative Potters, for a debate on the uniform price list, must have gone down through the black portals, or has somehow miscarried, for it has not reached the one to whom it was di-

The jiggermen, so it is understood, went so far as to select William Clayton to uphold their side of the argument, and topped it off by saying that they would not let Hughes return into the Brotherhood and work under the new list.

The news that a challenge had been issued came from one one of the leaders among the jiggermen, but now it seems that he was either giving out something which was not true or that the organization is suffering from "cold feet."

Mr. Hughes has not given the matter any consideration, and, in fact, is not worrying about the much-advertised challenge.

Several Influential and Wealthy Citizens of the County Are Back of the Plan.

TO MEET AT NEW CUMBERLAND

A number of influential citizens, including Sheriff Allison, of Hancock county, met at the home of Thomas Kessel, near Fairview, yesterday afternoon for the purpose of forming a company to be known as the Hancock County Fair association.

Such an organization has long been talked of, but this is the first move toward organization.

The fair ground will be formed from land owned by Thomas Kessel, at what is known as Silverthorn Park, near the Fairmount mineral springs, where there is now a half-mile track. This track will be enlarged to double its present size and the first fair will be held there next fall.

The stockholders will meet at New Cumberland on February 19, when of ficers will be chosen and the work of organization completed. It is generally understood that Sheriff C. F. Allison will be chosen president of the association. Hancock county has & large number of wealthy citizens interested in stock raising who will be stockholders in the association, and the success of the association is assured.

WHY NOT ENFORCE

THIS ORDINANCE?

It Provides For Signs at Street Corners and the Numbering of Houses In This City.

RECORD THAT IT HAS REPEALED

several occasions to take action on trying to sell the city signs, but still the matter is not taken up and acted

Local people who start out to find a street in this city some time have trouble, and it is an utter impossibility for a stranger to find his way without asking at every street corner.

The city is provided with an ordinance which if enforced would do away with all the difficulty and would give the traveling men and strangers a little better opinion of our city.

In order that all may know the law on the subject the ordinance is here reproduced. It is as follows:

"Every street corner within city, where the corner lot is built up or occupied with a building, shall, at the expense of the city, have the name or names of the street or streets forming the corner fixed to such corner so as to be distinctly in view, as near as may be to the height of the first story of such building, and whenever there is no such building and a lamp post is located on such corner the name or names of the street or streets forming the same shall be painted on the glass thereof or fixed thereto in distinct and legible letters. Said marking of street and street corners shall be done at the expense of the city. and by the city engineer, and said officer shall receive such reasonable compensation for his time and service as council may determine.

"All the houses on the streets and avenues of the city now built, occupled or ready for occupancy shall be numbered within four months from the passage of this ordinance, in accordance with the following plan or system: The city to be spaced for numbering and the number assigned to such spaces by the city engineer. Said numbers shall be neatly painted on zinc or Japanned tin plates; said plates to be of uniform size of not less than two and one-fourth by five inches square, and the figures of uniform size, of not less than one and-half inches high. Provided any person shall have the right and privilege to number his or her own house in an ornamental or illuminated number by first obtaining from said engineer a certificate of the proper number, said engineer shall furnish said numbering plate whenever requested by the owner or occupant of any house, at a uniform price of 25 cents, and whenever necessary he shall furnish said the same to be put up at the uniform price of 30 cents, unless otherwise ordered by council.

A great deal has been said lately, house or tenement with a less frontabout the marking of street corners age than 20 feet shall receive a whole and the numbering of houses in the number; and when the said vacant city, and council has been asked on lots shall be built upon, the house or houses shall have the number which the matter, while parties have been shall have been assigned the lots when vacant.

> "The figures of each and every number shall be distinct and legible and placed in a conspicuous place on the side or immediately above the front door of every such building and in full view of the street.

"All the streets and avenues in this city which run north and south, or generally in a north and south direction, the numbering on such streets shall begin at the southernly end of such street or avenue with the number 100 and progress northwardly in consecutively numbers, with odd numbers on the west and even numbers on the east side of each street or avenue. All streets and avenues which run in an east and west, or generally east and west direction shall be numbered east from Broadway and Lincoln avenue eastwardly and west from Broadway and Lincoln avenue westwardly, with odd numbers on the south and even numbers on the north side of the street or avenue, the numbering in all cases to begin with 100 and progress in consecutive num

"The city engineer shall divide up the different lots and blocks herein to be numbered, in the manner provided in this chapter, into the proper spaces, and affix to each of said spaces the proper number, entering in a suitable book, to be provided by council, prepared by said engineer and kept in his office, a plain and distinct memorandum of such spaces, with corresponding numbers and at all reasonable hours, when requested so to do he shall furnish to any person or persons, applying therefor a certificate of the proper number to represent any building; for which certificate he shall be entitled to demand the sum of 25 cents from the person or persons applying therefor; and upon his completion of the work assigned to him by this section he shall give notice thereof as provided by law.

"After having complied with the last preceding section it shall be the duty of said engineer, as new blocks are formed and new buildings are erected. to apply without delay the provisions of this chapter. The term "house" as used in this chapter is intended to mean any dwelling house, business block or building used for business purposes, and the term "street," any street, avenue, lane, alley, public place or highway.

"When the proper number has been plates and put up the same or cause affixed by said engineer to any space, as above provided, and there has been or shall be erected thereon a building, required by this chapter to be num-"One whole number shall be allowed bered, and the same shall not have to every 20 feet of ground whether been already numbered by the owner, phia lawyer to make anything but occupied or vacant-Provided that any occupant or agent thereof, as required chaos out of the whole business.

by the provisions of this chapter, said engineer shall cause notice to be given to such owner, occupant or agent thereof as required by the provisions of this chapter, said engineer shall cause notice to be given such owner, occupant or agent of the assignment by said engineer of the proper numbers for such building as required by law, and if such owner, occupant or agent shall within 30 days after the perfection of such notice fail to procure from said engineer a certificate of such number, and to properly affix the same to such building said engineer shall cause the same to be done at the expense of such owner, occupant or agent, certifying the same to the city clerk, who shall certify such expense to the county auditor, to be by that officer placed upon the tax duplicate as a charge against and a lien upon the lot of land wherever such building may stand, to be collected as other tax.

"The street commissioner, marshaf, deputy marshal and each policeman of the city, shall, and any other person may report to the civil engineer without delay all cases coming respectively to their knowledge of failure to number buildings as hereinbefore provided, and the civil engineer shall give notice of assignment of the numbers by him made therefor as provided in this chapter. Upon the fallure of any owner, occupant or agent of any building to which numbers shall have been so assigned within 30 days from the giving of such notice to procure from the engineer a certificate of such number and to properly affix same to such building the engineer shall cause the same to be done at the expense of such owner, occupant or agent, and to be collected in the same manner as in the foregoing section of this chapter, and at the end of every six months the city engineer shall give legal notice of the list of numbers so accumulated during the last preceding six months, and the same proceedings shall be had in reference to numbering the buildings affected by such notice and collecting the expense thereof, as provided in the like cases mentioned above.

"It shall be unlawful for any person or persons to take down, alter or deface any number of any building or buildings assigned or put up, or the name of any street corner so painted and affixed as aforesaid, or to retain any improper number, or to substitute any other number or numbers on his. her or their buildings, other than the number or numbers assigned by said engineer by virtue of the provisions of this ordinance. It shall be unlawful for any owner, occupant or agent, or lessee of any building or premises to refuse or neglect his or their houses as provided in this chapter, or to put up any number without first obtaining from said engineer a certificate of the proper number assigned.

"Any persons violating any of the provisions of this chapter shall, on conviction thereof, be fined in any sum not exceeding \$15 and costs for each

There is no record where the above ordinance has been repealed, but there is no question that it has never been enforced. Houses with odd numbers can be found on either side of almost every street in the city, while buildings without any numbers are numerous in the city. New buildings seldom ever have a number on them, and it would take a Philadel-

DOWN IN FLORIDA.

Some of Our East Liverpool Residents Are Away Down South.

Harry Peach is in receipt of a letter from his father and mother dated at Jacksonville, Florida. Councilman George Peach states that it was 84 in the shade on February 5, and that himself and Harrison Rinehart found it expedient to seek the shady side of the avenue, as it was hotter than hot.

Mrs. Peach has improved wonderfully in health, very much to her delight and that of her husband.

The party will put up for a time at the Tremont hotel, Orlando, about one hundred and fifty miles south of Jacksonville. Orlando is the home of oranges and pineapples, situated in Orange county, and the title is very appropriate.

The health and pleasure seekers are delighted with their surroundings. They wish to be remembered to all friends and acquaintances in East Liverpool, and have ordered the News Review sent to Orlando, as they naturally desire to have all the news from home.

ONE ARREST MADE

John Rowe Has Been Drinking Heavily For Several Days and Was Not

RESPONSIBLE FOR HIS ACTIONS

A Letter Has Been Received From John Raymond Asking For Intermation In

REGARD TO A RAYMOND FAMILY

But one arrest was made last night and the credit for that goes to Officers Gill and Dawson.

John Rowe, of Washington street, has been drinking heavily for several days and had reached a point where he was in no way responsible for his actions. He was very disorderly at his home, and when Mrs. Rowe could stand it no longer she summoned the police. They took him to jail, where he still lingers. The unfortunate man's friends will be consulted today and some arrangement made to look after him. Rowe is in very bad shape physically, and unless something is done to keep the whisky from him it is likely he will not last long.

Mayor Davidson will not hear him until his friends decide what they propose doing with the case.

The mayor yesterday received word from John Raymond, asking for information respecting the whereabouts of one Ada Raymond, whom he had reason to believe resided in East Liverpool.

Mayor Davidson made diligent inquiry, but without being able to find any one by that name in this community. His honor today wrote the postmaster at Liverpool, Medina county, O., in regard to the family and a reply is expected within the next few

The communication received by the mayor contained the information that an estate in Georgia amounting to almost \$80,000 was about to be settled, and that the Raymonds were heirs. The last the Georgia people knew of the family they were residents of this city.

ONE ARREST MADE

John Rowe Has Been Drinking Heavily For Several Days and Was Not

RESPONSIBLE FOR HIS ACTIONS

A Letter Has Been Received From John Raymond Asking For Intermation In

REGARD TO A RAYMOND FAMILY

But one arrest was made last night and the credit for that goes to Officers Gill and Dawson.

John Rowe, of Washington street, has been drinking heavily for several days and had reached a point where he was in no way responsible for his actions. He was very disorderly at his home, and when Mrs. Rowe could stand it no longer she summoned the police. They took him to jail, where he still lingers. The unfortunate man's friends will be consulted today and some arrangement made to look after him. Rowe is in very bad shape physically, and unless something is done to keep the whisky from him it is likely he will not last long.

Mayor Davidson will not hear him until his friends decide what they propose doing with the case.

The mayor yesterday received word from John Raymond, asking for information respecting the whereabouts of one Ada Raymond, whom he had reason to believe resided in East Liverpool.

Mayor Davidson made diligent inquiry, but without being able to find any one by that name in this community. His honor today wrote the postmaster at Liverpool, Medina county, O., in regard to the family and a reply is expected within the next few days.

The communication received by the mayor contained the information that an estate in Georgia amounting to almost \$80,000 was about to be settled, and that the Raymonds were heirs. The last the Georgia people knew of the family they were residents of this

Little Scraps Gathered from Here and From There—Items from Real Life.

Answer to candidate: "No, my rural friend, impressions are not usually taken for candidates' cards by means of an anvil and sledge. 'Tis true that some of the cards lately issued by the so-called pressmen's union of East Liverpool would lead the unwary and unsophisticated to this conclusion, net, and punish each and every law- but such is not really the case."

Why is a hen immortal? Because prayer that your backbone has the her son never sets.

> Candidate-Yes, my friend, a twoply card is somewhat thinner than a six-ply card. "Is there any difference in the price? "Well, I should smile. The six-ply costs about two-thirds more than the two-ply." "Who pays the difference?" "Oh. you foolish man: the candidate, of course."

When does a prolific hen give full evidence that she is happy? When she is constantly singing and full of eggs-to-see. Selah.

What little confidence game does the so-called pressmen's union desire to play with the News Review? "Will you walk into my parlor, said the spider to the fly." Next. "Heads I win; tails you lose."

Why don't a hen lay bricks instead of eggs? Because she is not a bricklayer. Chestnut.

When does the moon resemble a patron of the Midway saloons. "When she's full."

How many competent pressmen are there in this city. "Two; and one of the number at the News Review. Guess the other one and you can have him."

THAT NAGLE PROPERTY, SIXTH STREET, HAS BEEN SOLD.

It Was Stated That a Handsome Hotel Would be Erected at Once.

It was reported in real estate circles last evening that the Nagle property on Sixth street, just west of the Diamond, comprising two lots of 80 feet each, had been sold for hotel purposes.

Frederick Nagle was seen at noon and stated that there was nothing in the report, although the deal was liable to be consummated at any time. He said it had been reported sold many times during the past few weeks, but there had never been any foundation for the statement. He had a figure, certainly, and would sell if he got it.

It is understood there is a company in the city who would like very much to have the site, and that they could buy it for \$25,000, but this is a little more than they care to invest.

Where the Flyers Raced.

Not long ago the Cleveland flyer, hauled by one of the big class L engines, met the Erie railroad flyer near Ravenna, where both roads parallel each other for a few miles. The Erie flyer was late and the C. & P. flyer was nearly on time, but the contest between the simple standard engine with 80-inch drivers and the compound Wooten with 78-inch drivers was an interesting one. Both lined up near the crossing, and the race eastward was nip and tuck, but the big class L having a light train finally forged ahead of the Baldwin compound.

Those in charge have been endeavoring during the past four months to secure the services of a general secretary that would be acceptable to the members of the assocition, at the same time realizing that it was a difficult task, and one which would involve a great amount of good judgment to carry into execution. They have been in constant communication with State Secretary H. A. Wilbur within the past four months with this end in view, but until recently have had very little success. They now have a man in view whom they are almost sure will fill the bill, and when he has paid a visit to East Liverpool and looked over the ground something definite will develop.

Few people realize how difficult a matter it is to select a general secretary, as a man who would meet every requirement in one case would be practically useless in another. Besides there are a hundred and one petty difficulties and details they must necessarily be familiar with in order to give perfect satisfaction.

No effort will be made to place a physical director in the local association until the first of September, and the new secretary, whoever he may be, will be expected to look after this department of the work until that time.

The ladies' auxiliary is in excellent condition as regards interest and enthusiasm, and will be in readiness to begin active work just as soon as the association experiences a revival by the installation of a secretary. They were to have elected officers at the last meeting, which was held early in January, but as the association was doing nothing they deferred the matter until later.

PROSPECTS NOT BRIGHT.

Protracted Session of the Coal Scale Committee Seemed Apparent.

Columbus, Feb. 8.-The prospects last night were for a protracted session of the scale committee. About 10:30 p. m. the committee took a recess and separate caucuses were held by the miners and operators. It was understood strong influence was being brought to bear upon the Indiana operators to induce them to accept the run-of-mine standard and a reduction in the machine differential that will put them more nearly upon an equality with the Illiois operators. The Indiana operators had steadily refused to make any concessions, however. The Illinois operators were as determined not to recede from their original declaration that there must be an adjustment of prices throughout the competitive field. They did not care so much about prices and conditions in Ohio and Pennsylvania as in Indiana, and it was intimated that they would accept a compromise which would please the Hoosier operators upon an equal footing with them. It was extremely doubtful. however, whether the miners would agree to any such compromise.

NASH NOT WORRIED.

Governor and Attorney General Following the Law.

DETERMINED TO PREVENT NUISANCE

41 the Hearing In Cincinnati Allusions Made as to the Action of the Governor In Writing to the Sheriff and District Attorney While the Issue Was In Court.

Columbus, O., Feb. 8.-The action of the state emergency board in voting an appropriation of \$50,000 for the expenses of the troops to stop the Cincinnati fight was being seriously questioned here. It was held that there were several irregularities in the action which constitute sufficient grounds to enjoin the adjutant general from using the militia under the authority granted by the board. However, it was claimed that the governor could override the injunction by declaring martial law in Hamilton

Governor Nash was not worried about any of the questions that had been raised as to the legality of his action in preparing to stop the Je:fries-Ruhlin fight at Cincinnati. The governor and attorney general had both examined the law very closely and they felt that they followed the law in every step that has been taken. None of Governor Nash's friends here believed that he will be compelled to go to the full extent of the law, but they all said positively that he will do so if necessary. It was intimated here that should troops be required to prevent the fight a request will be made for them by the sheriff of Hamilton county.

Assailed Nash at Hearing.

Cincinnati, Feb. 8.-The plaintiffs, who asked for a permanent injunction against the prizefight, rested Thursday without calling one-tenth of their witnesses. The defendants had two strong witnesses in Hobart and Dieterle.

In the arguments Thursday between counsel over the competency of evidence and the submitting of certain documents there were sharp allusions to the action of Governor Nash in writing to the sheriff and prosecuting attorney regarding the proposed contest while it was being tried on its merits in the courts. These arguments showed that the principal issue is whether the event of Feb. 15 is to be a boxing contest or a prizefight. If a permanent injunction shall be granted against the event as a nuisance then the defendants announced that they would deny the jurisdiction of the court.

Attorney General Sheets addressed the court in defense of the action of Governor Nash, who, he said, was doing what the governors of all other states would do, except the governor of Nevada. He said the papers and all others were referring to the event of Feb. 15 as a prizefight, and the governor did not regard it as anything else, and therefore as a felony under the Ohio laws.

While it was held in open court that Governor Nash would use the whole power of the state to prevent Jeffries and Ruhlin from meeting here Feb. 15, much time was devoted on Thursday to showing the high standing in business and social circles of the directors and members of the Saengerfest Athletic association and to show that they had never violated laws and were acting in good faith in their arrangements for the contest. The directors of the Saengerfest Athletic association testified that, with the exception of the ministers and women, as a class, and a very small element of professional and business men, they found the sentiment of Cincinnati almost unanimously in favor of the contest. They testified to the German press and all classes of German organizations being bitterly antagonistic to the opposition of the contest.

Resolutions Admitted As Evidence.

The court admitted as evidence the resolutions adopted by various German societies against those who are Columbus. The capital stock of the opposing the boxing contest, Feb. 15, for the benefit of the old Saengerfest \$12,500 has been paid in. association. Translations of these resolutions were to be admitted in evidence today, as ordered by the court Thursday. The questions propounded to directors of the Saengerfest Athletic association as to what they knew about athletics in general

and the rules of the Marquis of Queensberry in particular, led to scenes of bitter disputes Thursday. It was evident that there was more than the usual feeling of opposition among the opposing counsel and their

DUTCH QUEEN MARRIED.

Bride of Duke Henry, Who Was Made a Prince-Preacher Gave Them Good Advice.

The Hague, Feb. 8.-Queen Wilhelmina's marriage to Duke Henry of Mecklenburg-Schwerin, who became Prince Heinrich of the Netherlands, was a huge family affair: Many persons came to The Hague to participate. Others who stayed at their homes in other cities and villages of the kingdom celebrated with parades, decorations and banquets.

Never was seen a more beautiful and happy wedding. The popular belief is that it is a love match, like that of Victoria and Albert, and this gives a romantic coloring to the

The ceremonies were the same simple and unritualistic rites of the Reformed church by which the humblest of Queen Wilhelmina's subjects are married. The whole spirt of the affair was plain and democratic, although the costly gowns and jewels and the showy uniforms of distinguished personages, high officials of the kingdom, the army and the navy. and representatives of the people in parliament and the municipalities, furnished a regal stage setting. The venerable pastor administered to the bride and groom a caution that their high positions would not shield them from the common sufferings and sorrows of humanity.

Queen Wilhelmina blushed and became confused over the ceremonial with the ring, while her happiness and pride over the enthusiasm of her people were plainly deeper than a mere matter of form.

Prince Heinrich was an awkward, but a stalwart and manly figure. Either he was forgetful or badly trained in the part, for the pastor had to give him two or three hints as to how to carry himself. Those sitting near enough to hear the responses describe him as saying: "Jah, mein Herr," when he should simply have replied. "Jah."

The scene, as the royal couple stood with clasped hands before the chaplain, in a circle of brilliantly arrayed personages, including relatives and people composing certain families of Holland and neighboring German principalities, was wonderfully gorgeous, the masses of variegated coloring rendering more effective the blue, gold and white banked up against the walls of the church. The building itself was described as like a cathedral in size.

Topeka, Kan., Feb. 8.-Mrs. Nation addressed both houses of the legislature last night on the saloon traffic. She presented herself at the door of the house with the request that she be allowed to speak. The request was voted upon and by a large majority Mrs. Nation was allowed to speak. Some few voted no. During her speech she said in part:

"I come to you today, men, as a woman, as a grandmother. I come to tell you our sentiments. I am glad of this opportunity to speak to fathers, husbands, protectors of wives, who sit at their firesides, who know a woman's heart and her interests.

"Now, gentlemen," said Mrs. Nation, in an earnest tone, "you can remedy this condition by knocking out the clause in the prohibitory law which gives the county attorney the right to summon witnesses, but refuses him the right to compel them to testify. You would do it if common murderers were running loose; why not do it in this case?

"Now, men," she said, "I am pleading with you. I have been forced to do this smashing business. I am going to tell the truth to you; you have not been dong your duty. A good solid vote is the best thing in the world with which to smash the saloons. You refused me the vote and I had to use a rock.

"An honest man, a true man, is the grandest work of God. I am telling the boys to smash saloons because they are the father of the man, and should be educated right. I tell them smash the saloons or they will smash you."

Mrs. Nation afterwards addressed the senate along the same lines.

Topeka, Kan., Feb. 8.-City Attorney Gregg dismissed the charge held against Mrs. Nation for smashing the Senate saloon on Tuesday. He threw all the responsibility for prosecuting the crusader on the state, and said in part:

"The city has no evidence covering the destruction of personal property, but under the laws of Kansas the state can prosecute Mrs. Nation, if what she destr ed can be proved to be personal property."

The city counselor and attorney employed to prosecute Mrs. Nation in the state courts had, he continued. sustained his view.

Later on Mrs. Nation began to sing "Praise God, from Whom All Blessings Flow." Her followers took up the strain and the court room was temporarily turned into a praise meet-

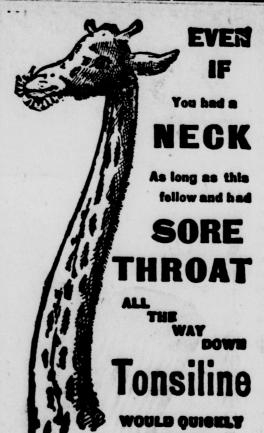

Chief of Police Favored the Women.

Judge Magraw commanded that the disturbance cease, but Chief of Police Stahl, who has openly favored Mrs. Nation's work, interrupted with "Go ahead, ladies, and sing all you want to," and they did, breaking out with even greater vigor with the words, "God be with you till we meet again." Unable to continue business, the court was adjourned and Judge Magraw left the building.

Mrs. Nation, the song service being ended, took Chief Stahl to task for not destroying the liquor seized by his men in raiding the saloons, but soon went out, followed by her band. Later she went to the high school and by invitation addresed the pupils. The senior class had adopted resolutions commending her work. Mrs. Nation was given a hearty welcome by the children.

NASH NOT WORRIED.

Governor and Attorney General Following the Law.

DETERMINED TO PREVENT NUISANCE

44 the Heering In Cincinnati Allusions Made as to the Action of the Governor In Writing to the Sheriff and District Attorney While the Issue Was In Court.

Columbus, O., Feb. 8.-The action of the state emergency board in voting an appropriation of \$50,000 for the expenses of the troops to stop the Cincinnati fight was being seriously questioned here. It was held that there were several irregularities in the action which constitute sufficient grounds to enjoin the adjutant general from using the militia under the authority granted by the board. However, it was claimed that the governor could override the injunction by declaring martial law in Hamilton county.

Governor Nash was not worried about any of the questions that had been raised as to the legality of his action in preparing to stop the Je:fries-Ruhlin fight at Cincinnati. The governor and attorney general had both examined the law very closely and they felt that they followed the law in every step that has been taken. None of Governor Nash's friends here believed that he will be compelled to go to the full extent of the law, but they all said positively that he will do so if necessary. It was intimated here that should troops be required to prevent the fight a request will be made for them by the sheriff of Hamilton county.

Assailed Nash at Hearing.

Cincinnati, Feb. 8.-The plaintiff's, who asked for a permanent injunction against the prizefight, rested Thursday without calling one-tenth of their witnesses. The defendants had two strong witnesses in Hobart Either he was forgetful or badly and Dieterle.

In the arguments Thursday between counsel over the competency of evidence and the submitting of certain documents there were sharp allusions to the action of Governor Nash in writing to the sheriff and prosecuting attorney regarding the proposed contest while it was being tried on its merits in the courts. These arguments showed that the principal issue is whether the event of Feb. 15 is to be a boxing contest or a prizefight. If a permanent injunction shall be granted against the event as a nuisance then the defendants announced that they would deny blue gold and white banked no the jurisdiction of the court.

Attorney General Sheets addressed the court in defense of the action of Governor Nash, who, he said, was doing what the governors of all other states would do, except the governor of Nevada. He said the papers and all others were referring to the event of Feb. 15 as a prizefight, and the governor did not regard it as anything else, and therefore as a felony under the Ohio laws.

While it was held in open court that Governor Nash would use the whole power of the state to prevent Jeffries and Ruhlin from meeting here Feb. 15, much time was devoted on Thursday to showing the high standing in business and social circles of the directors and members of the Saengerfest Athletic association and to show that they had never violated laws and were acting in good faith in their arrangements for the contest. The directors of the Saengerfest Athletic association testified that, with the exception of the ministers and women, as a class, and a very small element of professional and business men, they found the sentiment of Cincinnati almost unanimously in favor of the contest. They testified to the German press and all classes of German organizations being bitterly antagonistic to the opposition of the contest.

Resolutions Admitted As Evidence.

The court admitted as evidence the resolutions adopted by various German societies against those who are opposing the boxing contest, Feb. 15, for the benefit of the old Saengerfest association. Translations of these resolutions were to be admitted in evidence today, as ordered by the court Thursday. The questions propounded to directors of the Saengerfest Athletic association as to what they knew about athletics in general

and the rules of the Marquis of Queensberry in particular, led to scenes of bitter disputes Thursday. It was evident that there was more than the usual feeling of opposition among the opposing counsel and their

DUTCH QUEEN MARRIED.

Bride of Duke Henry, Who Was Made a Prince-Preacher Gave Them Good Advice.

The Hague, Feb. 8.-Queen Wilhelmina's marriage to Duke Henry of Mecklenburg-Schwerin, who became Prince Heinrich of the Netherlands, was a huge family affair: Many persons came to The Hague to participate. Others who stayed at their homes in other cities and villages of the kingdom celebrated with parades, decorations and banquets.

Never was seen a more beautiful and happy wedding. The popular belief is that it is a love match, like that of Victoria and Albert, and this gives a romantic coloring to the

The ceremonies were the same simple and unritualistic rites of the Reformed church by which the humblest of Queen Wilhelmina's subjects are married. The whole spirt of the tion, in an earnest tone, "you can affair was plain and democratic, although the costly gowns and jewels and the showy uniforms of distinguished personages, high officials of the kingdom, the army and the navy. and representatives of the people in parliament and the municipalities, furnished a regal stage setting. The venerable pastor administered to the bride and groom a caution that their high positions would not shield them from the common sufferings and sorrows of humanity.

Queen Wilhelmina blushed and became confused over the ceremonial with the ring, while her happiness and pride over the enthusiasm of her people were plainly deeper than a mere matter of form.

Prince Heinrich was an awkward, but a stalwart and manly figure. trained in the part, for the pastor had to give him two or three hints as to how to carry himself. Those sitting near enough to hear the responses describe him as saying: "Jah, mein Herr," when he should simply have replied, "Jah."

The scene, as the royal couple stood with clasped hands before the chaplain, in a circle of brilliantly arrayed personages, including relatives and people composing certain families of Holland and neighboring German principalities, was wonderfully gorgeous, the masses of variegated coloring rendering more effective the against the walls of the church. The building itself was described as like a cathedral in size.

DETERMINED TO PREVENT FIGHTS

Governor Yates Received a Telegran From a County Sheriff.

Springnesu, Ill., rev. 5.—The decid ed stand taken by Governor Yates against prizenghting in the state evidently had its effect. The governor received a telegram which shows that Lake county officials have decided to follow crosely his suggestion not to permit this class of contests. The telegram was signed by the state attorney and sheriff, and said:

"There will be no prizefights in Waukegan or Lake county if we can prevent same. We think we can control the situation."

Governor Yates replied: "I thank you for your telegram. I hope you will control the situation and enforce the law. I will be glad to furnish you any aid you desire."

SMASH OR BE SMASHED

Mrs. Nation Says That Is the Saloan Problem.

SALOON OR MAN MUST PERISH.

Made a Ringing Speech to the Kansas Legislature-Dismissed When Her Trial Came Up-Addressed Pupils of the Topeka High School.

Topeka, Kan., Feb. 8.-Mrs. Nation addressed both houses of the legislature last night on the saloon traffic. She presented herself at the door of the house with the request that she be allowed to speak. The request was voted upon and by a large majority Mrs. Nation was allowed to speak. Some few voted no. During her speech she said in part:

"I come to you today, men, as a woman, as a grandmother. I come to tell you our sentiments. I am glad of this opportunity to speak to fathers, husbands, protectors of wives, who sit at their firesides, who know a woman's heart and her interests.

"Now, gentlemen," said Mrs. Naremedy this condition by knocking out the clause in the prohibitory law which gives the county attorney the right to summon witnesses, but refuses him the right to compel them to testify. You would do it if common murderers were running loose; why not do it in this case?

Not Been Doing Their Duty.

"Now, men," she said, "I am pleading with you. I have been forced to do this smashing business. I am going to tell the truth to you; you have not been dong your duty. A good solid vote is the best thing in the world with which to smash the saloons. You refused me the vote and I had to use a rock.

Joseph Sheets, a former resident of this city, but who has been living in Wellwille for several years, is now at the home of his brother on Fourth street seriously ill. The young man has not been well for a long time, and the illness has now developed into consumption.

At the meeting of the Pride of the East Council, Jr. O. U. A. M., held last evening, it was announced that State Secretary J. G. H. Richter, of Canton, would be present at the meeting on next Thursday and steps were at once taken to entertain the official in a fitting manner. An entertainment will be held on that date, and as invitations will be extended to councils at Chester, Smith's Ferry and Wellsville, the attendance promises to be very large.

A conference is being held this afternoon between representatives of the Brotherhood of Painters and Paper Hangers' union and the house painters of the city. Since the scale of the union was presented several weeks ago there has been numerous conferences, and it is thought ample time has been given the contractors for a consideration of the various clauses in the scale of prices, so it is thought something definite will be agreed upon at the meeting this afternoon.

CHAMBERS OBJECTS TO PAYING The Members Had an Exceedingly AN ASSESSMENT.

He Asks That the City be Restrained from Collecting \$45 60.

Lisbon, Feb. 8.—(Special.)—Henry Chambers entered suit this morning against the city of East Liverpool to restrain the collection of \$45 60 assessment against him. Eight years ago Chambers claims that in accordance with a resolution passed by the city council he constructed a sidewalk along the front of his two lots on Pennsylvania avenue. In 1897 the city again found it necessary to grade the street and has now assessed a part of the cost of the improvement against the plaintiff. He denies the right of the city to do this and wants the court to enjoin them from collect-

LOOKED FOR CHALLENGE HAS MISSED ITS MARK.

Story Originated With a Jiggerman, Who Talked About it Too Soon.

Trenton True American.

The long-looked-for challenge from the Trenton jiggermen to President A. S. Hughes, of the Brotherhood of Operative Potters, for a debate on the uniform price list, must have gone down through the black portals, or has somehow miscarried, for it has not reached the one to whom it was directed.

The jiggermen, so it is understood, went so far as to select William Clayton to uphold their side of the argument, and topped it off by saying that they would not let Hughes return home until he had expounded to them the reasons why they should go back into the Brotherhood and work under the new list.

The news that a challenge had been issued came from one one of the leaders among the jiggermen, but now it seems that he was either giving out something which was not true or that the organization is suffering from "cold feet."

Mr. Hughes has not given the matter any consideration, and, in fact, is not worrying about the much-advertised challenge.

THE ELKS.

Pleasant Time at Their Hall Last Night.

After the entertainment given at the Grand last night, the Elks, accompanied by their lady friends, adjourned to their beautiful hall on Washington street, where music and dancing held sway. Participants inform us that they had a very delightful time. A prominent jeweler of the city, not as young as he used to be, confidentially informed us this morning that he indulged in the mazy waltz last night to his heart's content, and fondly imagined that his youth had been renewed and his physical system rejuvenated, as if he had obtained the boasted elixir of life, but that the twinges of pain in his left leg this morning convinced him of the reality of life and the vanity and emptiness of romance. And "sich is life."

FAIR ASSOCIATION

Preliminary Arrangements Have Been Made For the Forming of The New Association.

FIRST FAIR NEXT FALL

Several Influential and Wealthy Citizens of the County Are Back of the Plan.

TO MEET AT NEW CUMBERLAND

A number of influential citizens, including Sheriff Allison, of Hancock county, met at the home of Thomas Kessel, near Fairview, yesterday afternoon for the purpose of forming & company to be known as the Hancock County Fair association.

Such an organization has long been talked of, but this is the first move toward organization.

The fair ground will be formed from land owned by Thomas Kessel, at what is known as Silverthorn Park, near the Fairmount mineral springs, where there is now a half-mile track. This track will be enlarged to double its present size and the first fair will be held there next fall.

The stockholders will meet at New Cumberland on February 19, when officers will be chosen and the work of organization completed. It is generally understood that Sheriff C. F. Allison will be chosen president of the association. Hancock county has a large number of wealthy citizens interested in stock raising who will be stockholders in the association, and the success of the association is assured.

DOWN IN FLORIDA.

Some of Our East Liverpool Residents Are Away Down South.

Harry Peach is in receipt of a letter from his father and mother dated at Jacksonville, Florida. Councilman George Peach states that it was 84 in the shade on February 5, and that himself and Harrison Rinehart found it expedient to seek the shady side of the avenue, as it was hotter than hot.

Mrs. Peach has improved wonderfully in health, very much to her delight and that of her husband.

The party will put up for a time at the Tremont hotel, Orlando, about one hundred and fifty miles south of Jacksonville. Orlando is the home of oranges and pineapples, situated in Orange county, and the title is very ap-

The health and pleasure seekers are delighted with their surroundings. They wish to be remembered to all friends and acquaintances in East Liverpool, and have ordered the News Review sent to Orlando, as they naturally desire to have all the news from home.

ONE ARREST MADE

John Rowe Has Been Drinking Heavily For Several Days and Was Not

RESPONSIBLE FOR HIS ACTIONS

A Letter Has Been Received From John Raymond Asking For Intermation In

REGARD TO A RAYMOND FAMILY

But one arrest was made last night and the credit for that goes to Officers Gill and Dawson.

John Rowe, of Washington street, has been drinking heavily for several days and had reached a point where he was in no way responsible for his actions. He was very disorderly at his home, and when Mrs. Rowe could stand it no longer she summoned the police. They took him to jail, where he still lingers. The unfortunate man's friends will be consulted today and some arrangement made to look after him. Rowe is in very bad shape physically, and unless something is done to keep the whisky from him it is likely he will not last long.

Mayor Davidson will not hear him until his friends decide what they propose doing with the case.

The mayor yesterday received word from John Raymond, asking for information respecting the whereabouts of one Ada Raymond, whom he had reason to believe resided in East Liverpool.

Mayor Davidson made diligent inquiry, but without being able to find any one by that name in this community. His honor today wrote the postmaster at Liverpool, Medina county, O., in regard to the family and a reply is expected within the next few days.

The communication received by the mayor contained the information that an estate in Georgia amounting to almost \$80,000 was about to be settled, and that the Raymonds were heirs. The last the Georgia people knew of the family they were residents of this city.

OFFICIAL PAPER OF THE CITY

FRIDAY, FEBRUARY 8, 1901.

IN FLORIDA.

Councilman George Peach and his wife, in company with Harrison Rinehart, deem Orlando, Florida, a desirable spot for invalids and health seek-

DECEIT AND TREACHERY.

The sowing of this class of seed may be a source of gratification to some poor creatures; but the harvesting thereof. will be more bitter than gall and wormwood. Have a care.

DON'T DO IT.

Don't falsify or misrepresent. Don't indulge in malice or hatred. Tell the truth, even to candidates for office. Don't take money from half a dozen different candidates for the same office, unless you do it at the butt of a pistol or revolver, and take the chances of detection or punishment. Don't eat a man's bread and then kick over the bake-oven. Don't be a mouse; be a man.

SUNDAY DESECRATION.

The manor woman indulging in Sunday desecration is lacking in wisdom. Punishment will surely follow. There is no escape. There can be none. The flat has gone forth from the Master. All the ingenuity and cunning and smartness of a human being cannot compass lasting success in business, when that human building commits the crime of Sunday desecration. Have a care.

OUR JOB OFFICE.

Our job office is running to the limit of its capacity. Lovers of fair play are showing their appreciation of existing circumstances in a practical manner. We thank you, gentlemen, for your manhood and courtesy, and shall return the favor when the opportunity presents itself. This has been the most successful month of February in our business experience of eight years in East Liverpool.

DESPICABLE.

The Cleveland Leader of February 7 states that the men backing the contemplated prize fight between Jeffries and Ruhlin, booked to come off at Cincinnati this month, threaten that, in case Governor Nash stops the mill, the state of Ohio will down the Republican party in the next gubernatorial contest and elect a Democratic governor. Such a threat shows the despicable character of the creatures who make use of it. Governor Nash will win and hold the respect and esteem of every decent and respectable citizen of Ohio by bidding defiance to every tough and rough in the

It is high time to call a halt on ruffianism and lawlessness in this grand old Buckeye commonwealth, and we hope and pray that our chief magistrate may have the nerve and sand and backbone to call the blackguards at Cincinnati down in case they attempt to defy the law, and not only arrest the principals in case they enter the ring, but also their seconds and backers and every spectator, even at the point of the bayonet, and punish each and every lawbreaker to the limit. Answer to candidate: "No, my rural friend, impressions are not usually taken for candidates' cards by means of an anvil and sledge. 'Tis true that some of the cards lately issued by the so-called pressmen's union of East Liverpool would lead the unwary and unsophisticated to this conclusion, but such is not really the case."

Why is a hen immortal? Because her son never sets.

Candidate-Yes, my friend, a twoply card is somewhat thinner than a six-ply card. "Is there any difference All 1900 wall paper at half price. in the price? "Well, I should smile. The six-ply costs about two-thirds more than the two-ply." "Who pays the difference?" "Oh, you foolish man; the candidate, of course."

> When does a prolific hen give full evidence that she is happy? When she is constantly singing and full of eggs-to-see. Selah.

What little confidence game does the so-called pressmen's union desire to play with the News Review? "Will you walk into my parlor, said the spider to the fly." Next. "Heads I win: tails you lose."

Why don't a hen lay bricks instead of eggs? Because she is not a bricklayer. Chestnut.

Not long ago the Cleveland flyer, hauled by one of the big class L engines, met the Erie railroad flyer near Ravenna, where both roads parallel each other for a few miles. The Erie flyer was late and the C. & P. flyer was nearly on time, but the contest between the simple standard engine with 80-inch drivers and the compound Wooten with 78-inch drivers was an interesting one. Both lined up near the crossing, and the race eastward was nip and tuck, but the big class L having a light train finally forged ahead of the Baldwin compound.

AUXILIARY IN EXCELLENT SHAPE

Friends and patrons of the Young Men's Christian Association in this city will be gratified to learn that the directors hope within the next week or 10 days to have an efficient secretary in charge of affairs at that insti-

Those in charge have been endeavoring during the past four months to secure the services of a general secretary that would be acceptable to the members of the assocition, at the same time realizing that it was a difficult task, and one which would involve a great amount of good judgment to carry into execution. They have been in constant communication with State Secretary H. A. Wilbur within the past four months with this end in view, but until recently have had very little success. They now have a man in view whom they are almost sure will fill the bill, and tive of Germany. when he has paid a visit to East Liverpool and looked over the ground tive of Philadelphia. something definite will develop.

Few people realize how difficult a matter it is to select a general secretary, as a man who would meet every requirement in one case would be practically useless in another. Besides there are a hundred and one petty difficulties and details they must necessarily be familiar with in order to give perfect satisfaction.

No effort will be made to place a physical director in the local association until the first of September, and the new secretary, whoever he may be, will be expected to look after this department of the work until that

The ladies' auxiliary is in excellent condition as regards interest and enthusiasm, and will be in readiness to begin active work just as soon as the association experiences a revival by the installation of a secretary. They were to have elected officers at the last meeting, which was held early in January, but as the association was doing nothing they deferred the matter until later.

PROSPECTS NOT BRIGHT.

Protracted Session of the Coal Scale Committee Seemed Apparent.

Columbus, Feb. 8.-The prospects last night were for a protracted session of the scale committee. About 10:30 p. m. the committee took a recess and separate caucuses were held by the miners and operators. It was understood strong influence was being brought to bear upon the Indiana operators to induce them to accept the run-of-mine standard and a reduction in the machine differential that will put them more nearly upon an equality with the Illiois operators. The Indiana operators had steadily refused to make any concessions, however. The Illinois operators were as determined not to recede from their original declaration that there must be an adjustment of prices throughout the competitive field. They did not care so much about prices and conditions in Ohio and Pennsylvania as in Indiana, and it was intimated that they would accept a compromise which would please the Hoosier operators upon an equal footing with them. It was extremely doubtful, however, whether the miners would agree to any such compromise.

ALLEGED STEEL DEAL

Rumor It Had Not Been Entirely Consummated Caused Some Flurry, on Thursday.

New York, Feb. 8.-The glamor of the vast projected steel combination was still over Wall street Thursday and dominated the speculation almost completely. A renewed upward movement in Union Pacific formed an effective supplement. That stock fluctuated. The amount of stocks encountered at 55 was apparently illimitable, and not only Federal Steel, but the whole market staggered under it. There were significant intimations thrown out that the whole negotiation was still in a somewhat delicate stage, such as left the possibility that the unbridled speculation in the securities concerned might seriously interfere with its consummation. The idea of being long of the steel stocks with the proposed combination collapsed and abandoned was sufficient to cause a nervous state of mind among some of the speculators, who had taken on enormous lines of these

NASH NOT WORRIED.

Governor and Attorney General Following the Law.

DETERMINED TO PREVENT NUISANCE

4t the Hearing In Cincinnati Allusions Made as to the Action of the Governor In Writing to the Sheriff and District Attorney While the Issue Was In Court.

Columbus, O., Feb. 8.-The action of the state emergency board in voting an appropriation of \$50,000 for the expenses of the troops to stop the Cincinnati fight was being seriously questioned here. It was held that there were several irregularities in the action which constitute sufficient grounds to enjoin the adjutant general from using the militia under the authority granted by the board. However, it was claimed that the governor could override the injunction by declaring martial law in Hamilton

Governor Nash was not worried about any of the questions that had been raised as to the legality of his action in preparing to stop the Jesfries-Ruhlin fight at Cincinnati. The governor and attorney general had both examined the law very closely and they felt that they followed the law in every step that has been taken. None of Governor Nash's friends here believed that he will be compelled to go to the full extent of the law, but they all said positively that he will do so if necessary. It was intimated here that should troops be required to prevent the fight a request will be made for them by the sheriff of Hamilton county.

Assailed Nash at Hearing.

Cincinnati, Feb. 8.-The plaintiff's, who asked for a permanent injunction against the prizefight, rested Thursday without calling one-tenth of their witnesses. The defendants had two strong witnesses in Hobart and Dieterle.

In the arguments Thursday between counsel over the competency of evidence and the submitting of certain documents there were sharp allusions to the action of Governor Nash in writing to the sheriff and prosecuting attorney regarding the proposed contest while it was being tried on its merits in the courts. These arguments showed that the principal issue is whether the event of Feb. 15 is to be a boxing contest or a prizefight. If a permanent injunction shall be granted against the event as a nuisance then the defendants announced that they would deny the jurisdiction of the court

Attorney General Sheets addressed the court in defense of the action of Governor Nash, who, he said, was doing what the governors of all other states would do, except the governor of Nevada. He said the papers and all others were referring to the event of Feb. 15 as a prizefight, and the governor did not regard it as anything else, and therefore as a felony under the Ohio laws.

While it was held in open court that Governor Nash would use the whole power of the state to prevent Jeffries and Ruhlin from meeting here Feb. 15, much time was devoted on Thursday to showing the high standing in business and social circles of the directors and members of the Saengerfest Athletic association and to show that they had never violated laws and were acting in good faith in their arrangements for the contest. The directors of the Saengerfest Athletic association testified that, with the exception of the ministers and women, as a class, and a very small element of professional and business men, they found the sentiment of Cincinnati almost unanimously in favor of the contest. They testified to the German press and all classes of German organizations being bitterly antagonistic to the opposition of the contest.

Resolutions Admitted As Evidence.

The court admitted as evidence the resolutions adopted by various German societies against those who are opposing the boxing contest, Feb. 15, for the benefit of the old Saengerfest association. Translations of these resolutions were to be admitted in evidence today, as ordered by the court Thursday. The questions propounded to directors of the Saengerfest Athletic association as to what they knew about athletics in general Detroit Free Press.

and the rules of the Marquis of Queensberry in particular, led to scenes of bitter disputes Thursday. It was evident that there was more than the usual feeling of opposition among the opposing counsel and their

DUTCH QUEEN MARRIED.

Bride of Duke Henry, Who Was Made a Prince-Preacher Gave Them Good Advice.

The Hague, Feb. 8.-Queen Wilhelmina's marriage to Duke Henry of Mecklenburg-Schwerin, who became Prince Heinrich of the Netherlands, was a huge family affair: Many persons came to The Hague to participate. Others who stayed at their homes in other cities and villages of the kingdom celebrated with parades, decorations and banquets.

Never was seen a more beautiful and happy wedding. The popular belief is that it is a love match, like that of Victoria and Albert, and this gives a romantic coloring to the

The ceremonies were the same simple and unritualistic rites of the Reformed church by which the humblest of Queen Wilhelmina's subjects are married. The whole spirt of the affair was plain and democratic, although the costly gowns and jewels and the showy uniforms of distinguished personages, high officials of the kingdom, the army and the navy. and representatives of the people in parliament and the municipalities, furnished a regal stage setting. The venerable pastor administered to the bride and groom a caution that their high positions would not shield them from the common sufferings and sorrows of humanity.

Queen Wilhelmina blushed and became confused over the ceremonial with the ring, while her happiness and pride over the enthusiasm of her people were plainly deeper than a mere matter of form.

Prince Heinrich was an awkward, but a stalwart and manly figure. Either he was forgetful or badly trained in the part, for the pastor had to give him two or three hints as to how to carry himself. Those sitting near enough to hear the responses describe him as saying: "Jah, mein Herr." when he should simply have replied, "Jah."

The scene, as the royal couple stood with clasped hands before the chaplain, in a circle of brilliantly arrayed personages, including relatives and people composing certain families of Holland and neighboring German principalities, was wonderfully gorgeous, the masses of variegated coloring rendering more effective the blue, gold and white banked up against the walls of the church. The building itself was described as like a cathedral in size.

Springuera, Ill., rev. 5.-The decid ed stand taken by Governor Yates against prizenghting in the state evidently had its effect. The governor received a telegram which shows that Lake county officials have decided to follow crosely his suggestion not to permit this class of contests. The telegram was signed by the state attorney and sheriff, and said:

"There will be no prizetights in Waukegan or Lake county if we can prevent same. We think we can control the situation."

Governor Yates replied: "I thank you for your telegram. I hope you will control the situation and enforce the law. I will be glad to furnish you any aid you desire."

Mrs. Nation Says That Is the Saloan Problem.

SALOON OR MAN MUST PERISH.

Made a Ringing Speech to the Kansas Legislature-Dismissed When Her Trial Came Up-Addressed Pupils of the Topeka High School.

Topeka, Kan., Feb. 8.-Mrs. Nation addressed both houses of the legislature last night on the saloon traffic. She presented herself at the door of the house with the request that she be allowed to speak. The request was voted upon and by a large majority Mrs. Nation was allowed to speak. Some few voted no. During her speech she said in part:

"I come to you today, men, as a woman, as a grandmother. I come to tell you our sentiments. I am glad of this opportunity to speak to fathers, husbands, protectors of wives, who sit at their firesides, who know a woman's heart and her interests.

"Now, gentlemen," said Mrs. Nation, in an earnest tone, "you can remedy this condition by knocking out the clause in the prohibitory law which gives the county attorney the right to summon witnesses, but refuses him the right to compel them to testify. You would do it if common murderers were running loose; why not do it in this case?

Not Been Doing Their Duty.

"Now, men," she said, "I am pleading with you. I have been forced to do this smashing business. I am going to tell the truth to you; you have not been dong your duty. A good solid vote is the best thing in the world with which to smash the saloons. You refused me the vote and I had to use a rock.

"The saloon man," said Mrs. Nation, is a malicious pauper. He thrives off the life blood of the men of this nation. Whisky makes perjurers. I would not believe a joint keeper on oath even if it was only about a dog fight.

"An honest man, a true man, is the grandest work of God. I am telling the boys to smash saloons because they are the father of the man, and should be educated right. I tell them smash the saloons or they will smash you."

Mrs. Nation afterwards addressed the senate along the same lines.

Topeka, Kan., Feb. 8.-City Attorney Gregg dismissed the charge held against Mrs. Nation for smashing the Senate saloon on Tuesday. He threw

but under the laws of Kansas the state can prosecute Mrs. Nation, if what she destr ed can be proved to be personal property."

The city counselor and attorney employed to prosecute Mrs. Nation in the state courts had, he continued. sustained his view.

Later on Mrs. Nation began to sing "Praise God, from Whom All Blessings Flow." Her followers took up the strain and the court room was temporarily turned into a praise meet-

Chief of Police Favored the Women.

Judge Magraw commanded that the disturbance cease, but Chief of Police Stahl, who has openly favored Mrs. Nation's work, interrupted with "Go ahead, ladies, and sing all you want to," and they did, breaking out with even greater vigor with the words, "God be with you till we meet again." Unable to continue business, the court was adjourned and Judge Magraw left the building.

Mrs. Nation, the song service being ended, took Chief Stahl to task for not destroying the liquor seized by his men in raiding the saloons, but soon went out, followed by her band. Later she went to the high school and by invitation addresed the pupils. The senior class had adopted resolutions commending her work. Mrs. Nation was given a hearty welcome by the children.
